### Synopsis:

Black Stone - Treasure of Etna

The use that man has made of eruptive material during the centuries up until today with the ceramic lava stone.

We'll run over all the various periods, describing the various type of use that man has made of the lava stone during the centuries.

The man has always used lava stone, to defend himself, to build residences, to realize roads, but today, what use is there for lava stone? How is it extracted? How is it used by man?

Gaetano Adriano Pulvirenti
